About Me

I am a Software Engineering student at National Textile University.I am a App and Web developer with skills in both front-end and back-end development. I have experience working with Flutter Dart, HTML, CSS, JavaScript, Next.js, and I am also familiar with Node.js and MongoDB. I n addition to development, I have skills in logo design and advertisement creation, which I design using Canva. I am also capable of creating UI designs using Figma. I have completed an internship in web development at Techxen Solutions, where I significantly improved my technical and practical skills

WORK EXPERIENCE

Sep 2025 - July 2025

CityFix AI-Powered Smart City Complaint management System

- Developed a Flutter-based mobile application to help citizens report and manage civic issues in Faisalabad.Integrated AI to analyze complaints, categorize issues, and prioritize them based on urgency.Implemented voice-to-text functionality for submitting complaints in Urdu and English.Enabled image attachments to provide supporting evidence for reported issues.Developed a Node.js backend with MongoDB for complaint management and data storage.Designed complaint tracking features to improve transparency and communication between citizens and relevant departments.
